Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. **Claims 14 and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Jorgensen (5,439,473) in view of Czernecki et al. (5,356,420).** Jorgensen discloses a lancet device comprising a housing (30) including an open interior (see figure 1), a lancet (50) movably disposed in the open interior including a piercing tip (51), a biasing assembly (31) disposed within the housing and interconnected directly between the housing and the lancet (see figure 1), a cocking seat (10) detached from the lancet and movably in driving relation to the lancet, an engagement assembly (39) disposed on the lancet and movable with and relative to the lancet and comprising an engagement member (40), and a release element (36) fixedly secured to the housing and movable therewith. The engagement assembly also comprises a retention member (the surface of 40 that contacts surface 17 of the cocking seat). Jorgensen also discloses a hinge (the reduced thickness area of arms 39 adjacent to the engagement members 40). However, Jorgensen fails to disclose the hinge is breakable. Attention is drawn to Czernecki et al., who teach the use of breakable engagement members (11) that break to prevent reused of the device. Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to have made the

hinge area of Jorgensen breakable in the manner taught by Czernecki et al. to prevent reuse of the device.

Response to Arguments

3. Applicant's arguments with respect to claims 14 and 15 have been considered but are moot in view of the new ground(s) of rejection. Examiner notes that in response to the non-final rejection of 1/20/2010, applicant cancelled all previously pending claims and presented new claims 14 and 15 for consideration.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

5. A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
